The Office of Fiscal and Program Review (OFPR) is a nonpartisan staff office of the Legislative Council providing budget, tax and general fiscal research and analysis for the Maine State Legislature.

## Month In Review

General Fund revenue ended FY 2013 with another strong performance in June and posted a \$46.0 million or 1.5% positive variance for the fiscal year. Individual income tax collections were once again higher than projected and represented more than half of the revenue surplus. The Estate Tax was the other major contributor to the surplus, largely due to a single, very large estate tax payment. The revenue surplus when combined with lapsed appropriation balances and other accounting adjustments resulted in FY 2013 year-end transfers through the so-called "Cascade" of nearly \$58 million; \$42 million of which was transferred into the Maine Budget Stabilization Fund.

Highway Fund revenue also ended with a positive variance in June that resulted in a revenue surplus for the fiscal year of \$3.4 million or 1.1%. That revenue surplus plus lapsed Highway Fund allocation balances and other accounting adjustments will mean that \$6.4 million will be available for transfer to the Department of Transportation for highway and bridge improvement projects in FY 2014.

The average balance in the cash pool was sufficiently healthy in FY 2013 to avoid external cash flow borrowing. However, the \$98.5 million of interfund borrowing to help balance the General Fund in FY 2014 will erode the State's cash balances over the course of FY 2014. This will be partially mitigated by some improved General Fund reserve fund balances as a result of the FY 2013 Year-end Cascade transfers.

Although Maine Public Employees Retirement System (MainePERS) investments were down 0.7% for the last quarter, they ended the fiscal year up 11.1%, which was well above the average assumed rate of return built into the actuarial assumptions.

State operating fund expenditures for FY 2013 declined by 1.6% compared with FY 2012 led by declining expenditures in Federal Funds and the General Fund. Highway Fund and Other Special Revenue Funds (dedicated revenue accounts) expenditures increased. The net effect of some one-time unusual expenditures in MaineCare and a school subsidy deferral help explain much of the General Fund decline in FY 2013.

Despite declining caseload, FY 2013 MaineCare total spending increased by 2.8%. Although MaineCare General Fund spending appeared to decline modestly, it too showed 2.3% growth after adjusting for some significant one-time payments. The additional, emergency General Fund appropriations provided to address a shortfall for the last 2 weekly MaineCare cycle payments in FY 2013 proved to be more than enough. The MaineCare program ended the fiscal year with a balance of more than \$11 million available to carry forward from FY 2013 to FY 2014.

## General Fund Revenue Update

Total General Fund Revenue - FY 2013 (\$'s in Millions)

	Budget	Actual	Var.	% Var.	Prior Year	% Growth
June	\$468.0	\$495.8	\$27.8	5.9%	\$469.7	5.6%
FYTD	\$3,048.3	\$3,094.4	\$46.0	1.5%	\$3,015.5	2.6%

General Fund revenue had another strong performance in month of June with a \$27.8 million positive variance and ended FY 2013 with a total positive variance of \$46.0 million (1.5%) and a growth rate of 2.6% over FY 2012.

The most significant contributor to the FY 2013 positive variance was the Individual Income Tax, which ended FY 2013 over budget by \$26.9 million. Much of this variance is one-time in nature and is related to tax year 2012 income, which was positively affected by upper income taxpayers' behavior to avoid adverse tax law changes. However, withholding payments, which are the best current measure of income tax performance, have been running ahead of budget and, through the first half of tax year 2013, were \$11.5 million ahead of projections.

There were two other significant contributors towards the FY 2013 positive variance, again both

Primarily one-time in nature. The first was a very large estate tax payment in FY 2013, which was the primary reason for a \$8.9 million positive variance in the Estate Tax category. The other contributor was the year-end transfer from balances related to unclaimed property, which transferred \$4.8 million or 80% more than projected.

An area of recent concern has been the Sales and Use Tax. Sales tax collections ended FY 2013 with rather anemic growth of 0.6% over FY 2012 and were just slightly ahead of projections. That modest positive variance was only after the FY 2013 budgeted target for this category was lowered by \$22.1 million in the May 2013 revenue forecast. The forecast of FY 2014 Sales and Use Tax revenue assumes a return to a more normal growth rate for this category of around 4%. Preliminary data for July indicate this category is very close to budget. This is encouraging, particularly in light of June's rather dismal weather to open the tourism season.

## Highway Fund Revenue Update

Total Highway Fund Revenue - FY 2013 (\$'s in Millions)

	Budget	Actual	Var.	% Var.	Prior Year	% Growth
June	\$44.8	\$45.6	\$0.7	1.6%	\$46.4	-1.8%
FYTD	\$315.4	\$318.8	\$3.4	1.1%	\$317.2	0.5%

Highway Fund revenue was over budget by \$0.7 million in June and ended FY 2013 with a positive \$3.4 million variance. While FY 2013 ended the fiscal year with a positive 0.5% growth rate over FY 2012, it was only the result of the significant one-time title fee revenue received in October. Projections for FY 2014 assume a decline in total Highway Fund revenue of 2.6%. This decline is much greater than the long-term projected decline in Highway Fund revenue as a result of the unusual one-time FY 2013 collections.

The Fuel Taxes category had a strong performance in June and was \$1.2 million over budget for the month and for FY 2013. This positive variance was posted

only after the May 2013 revenue forecast adjusted FY 2013 projections for this broad category downward by \$3.6 million.

Fuel tax collections declined 2.2% in FY 2013 and are currently projected to decline by 1.5% in FY 2014, which will continue to put pressure on the Highway Fund budget.

Although the Motor Vehicle Registration and Fees category was under budget in June, this was largely due to a major collection effort in May. The positive variance built up through May was more than sufficient to offset June's shortfall and this category ended FY 2013 with a \$1.5 million positive variance.

## FY 2013 Year-end Cascade Transfers

At the close of each fiscal year, the amount of the available General Fund balance in the unappropriated surplus account is distributed to various reserves and for other special purposes based on statutory provisions. The balance "available" for distribution is only the amount above the budgeted General Fund ending balance for the fiscal year being closed. The primary sources of the "available" amounts for the "Cascade" distributions are actual revenue above the budgeted amounts and any unexpended General Fund appropriation balances that lapse to the unappropriated surplus that are unbudgeted. Other accounting adjustments may add to or reduce the amount of the uncommitted funds available for the statutory transfers.

Although not officially released by the Office of the State Controller, the table below presents a preliminary summary of the sources and uses of the FY 2013 uncommitted funds. The \$46.0 million revenue variance, the \$6.2 million of unbudgeted lapsed appropriation balances and \$5.7 million of various other accounting adjustments increased the General Fund ending balance \$57.9 million above the \$7.7 million budgeted ending balance for FY 2013. Per the statutory provisions, all of this \$57.9 million was distributed at the close of the fiscal year.

The FY 2013 Year-end Cascade provisions were amended earlier this past legislative session to

significantly increase the amount that is transferred to the Maine Budget Stabilization Fund. After fixed dollar transfers to replenish the Governor's Contingent Account, increase the Loan Insurance Reserve at the Finance Authority of Maine and fund the estimated cost-of-living adjustment for retired state employees and teachers, 80% of the remaining amounts available for transfer or \$42.1 million was transferred to the Maine Budget Stabilization Fund. However, after netting out a \$27.0 million budgeted transfer from this fund to the General Fund, the net increase in the Maine Budget Stabilization Fund balance for FY 2013 was only \$15.1 million.

The FY 2013 Cascade also transfers for the first time \$4.0 million to the Tax Relief Fund for Maine Residents for future income tax reductions.

The Highway Fund also has a statutory year-end transfer provision that transfers all but \$100,000 of the increase in its uncommitted balance to the Department of Transportation for highway and bridge improvement projects in the next fiscal year. The amounts that will be available in FY 2014 will be \$6.4 million: \$3.4 million from the FY 2013 Highway Fund revenue variance; \$2.8 million from Highway Fund lapsed allocation balances; and \$0.2 from various other accounting adjustments. Again, this represents preliminary year-end reporting, not yet officially released.

FY 2013 Preliminary General Fund Year-end Summary		
<b>Sources of General Fund Year-end Surplus:</b>		
General Fund Revenue Variance		\$46,041,752
Unbudgeted Lapsed Balances		\$6,161,936
Other Accounting Adjustments Increasing (Decreasing) Balance		\$5,740,728
<b>Total Increase in Uncommitted Unappropriated Surplus</b>		<b>\$57,944,416</b>
<b>Uses of General Fund Year-end Surplus:</b>		
<b>Fixed Dollar Transfers</b>		
Replenish Contingent Account up to \$350,000 (5 MRSA § 1507)		(\$262,000)
Transfer to Loan Insurance Reserve up to \$1,000,000 (5 MRSA § 1511)		(\$1,000,000)
Transfer to Retirement Reserve up to \$4,100,000 (5 MRSA § 1522)		(\$4,100,000)
<b>Percentage Transfers of Remaining Surplus after Fixed Dollar Transfers</b>		
Maine Budget Stabilization Fund	80%	(\$42,065,933)
Reserve for General Fund Operating Capital	5.0%	(\$2,629,121)
Retiree Health Internal Service Fund	3.5%	(\$1,840,384)
Capital Construction & Improvements Reserve Fund	3.8%	(\$1,998,132)
Tax Relief Fund for Maine Residents	7.7%	(\$4,048,846)
<b>Total Closing Transfers</b>		<b><u>(\$57,944,416)</u></b>

## Cash Update

The average total cash pool balance for June was \$512.2 million: \$18.7 million lower than May; \$23.1 million higher than last June and \$76.4 million less than the 10-year average balance for June of \$588.6 million.

June's average for General Fund internal borrowing was \$54.0 million less than June 2012, but increased by \$11.2 million from the May 2013 average. This internal borrowing is likely to increase substantially over the course of FY 2014. As was the case with the 2012-2013 biennium, the 2014-2015 biennial General Fund budget for the 2014-2015 relies on borrowing from Other Special Revenue funds to provide the resources to balance the first year of the biennium. In FY 2014, the \$98.5 million higher level of spending supported by the one-day borrowing will degrade the General Fund cash position over the course of FY 2014 before recovering in FY 2015.

Providing a modest offset to the negative effects of the borrowing to balance the budget will be the increased General Fund reserve balances as a result of the FY 2013 Year-end Cascade transfers. The Maine Budget Stabilization Fund balance increased by roughly \$15.1 million at the close of FY 2013 after netting out the budgeted transfer to the General Fund and the ending balance in the Reserve for Operating Capital increased by \$2.6 million.

### Summary of Treasurer's Cash Pool

#### June Average Daily Balances

Millions of '\$s'		
	2012	2013
General Fund (GF) Total	\$39.2	\$48.6
General Fund (GF) Detail:		
Budget Stabilization Fund	\$44.8	\$44.6

Tax Anticipation Notes	\$0.0	\$0.0
Internal Borrowing	\$183.3	\$129.3
Other General Fund Cash	(\$206.0)	(\$142.5)
Other Spec. Rev. - Interest to GF	(\$8.2)	\$44.9
Other State Funds - Interest to GF	\$19.9	\$18.3
Highway Fund	\$47.2	\$37.4
Other Spec. Rev. - Retaining Interest	\$58.1	\$76.0
Other State Funds	\$228.2	\$180.1
Independent Agency Funds	<u>\$104.6</u>	<u>\$106.9</u>
<b>Total Cash Pool</b>	<b>\$489.0</b>	<b>\$512.2</b>

## MainePERS Investment Update

Maine Public Employees Retirement System (MainePERS) investments were down 0.7% for the quarter but up 11.1% over the previous one year period. The total plan assets decreased \$200 million for the quarter, from \$11.4 billion as of April 30, 2013 to \$11.2 billion as of June 30, 2013.

For the quarter ending June 30, 2013, US stocks were up 2.9% while international stocks returned a negative 2.9% and US bonds declined 4.5%. During that same time period, approximately 90% of MainePERS asset allocation was in US Stocks (34.5%), US Bonds (25.6%), International Stocks (24.2%), and Real

Estate(5.7%), with the balance in Other, Infrastructure, Private Equity and Cash.

The table below has the long-term return information as of June 30, 2013. Over the past 30 years, the fund has had an average return of 8.7% per year. It is important to realize that quarterly and annual performance can deviate significantly from this long-term average in any given year and will not affect the rates for the 2014-2015 biennium, which were established based on the returns and value of plan assets as of June 30, 2012.

### Long-Term Performance ending June 30, 2013

(annualized performance)

	1 Year	3 Years	5 Years	10 Years	30 Years
<b>Total Fund</b>	11.1%	11.0%	4.3%	6.9%	8.7%

## Expenditures Update

Expenditures in the State's operating funds declined 1.6% compared with FY 2012. Federal Funds and General Fund expenditures declined by 3.6% and 1.5%, respectively, while Highway Fund expenditures increased by 1.0% and Other Special Revenue Funds expenditures (dedicated revenue accounts) increased by 2.9%.

The decline of General Fund expenditures was due almost entirely to changes in spending in the Departments of Education and Health and Human Services. Much of the decline in the Department of Education was related to General Purpose Aid for Local Schools, which included an \$18.5 million

deferral of portion of the June 2013 school subsidy payment until July. For the Department of Health and Human Services, some significant one-time General Fund MaineCare expenditures in FY 2012 and FY 2013 account for \$20.0 million of the department's \$25.3 million decline of expenditures from FY 2012 to FY 2013.

As noted earlier in this issue, some significant one-time title fee revenue provided the resources for a \$3.1 million or 1.0% increase in Highway Fund expenditures in FY 2013. Most of this increase, 3.0 million, was allocated to the Department of Transportation.

### Operating Funds - Expenditures through Close of Fiscal Year

<b>Operating Funds:</b>	<b>FY 2012</b>	<b>FY 2013</b>	<b>% Change</b>
General Fund	\$3,087,289,656	\$3,040,965,276	-1.5%
Highway Fund	\$314,187,693	\$317,286,359	1.0%
Other Special Revenue Funds	\$945,185,854	\$972,748,895	2.9%
Federal Funds	\$2,659,318,998	\$2,562,739,045	-3.6%
<b>Total Operating Funds</b>	<b>\$7,005,982,201</b>	<b>\$6,893,739,575</b>	<b>-1.6%</b>

### General Fund Expenditures by Major Department

Education	\$1,107,092,684	\$1,087,151,776	-1.8%
Health and Human Services	\$1,105,080,250	\$1,079,792,709	-2.3%
Corrections	\$133,387,451	\$132,551,237	-0.6%
Administrative and Financial Services	\$118,652,925	\$119,297,735	0.5%
Other Departments and Agencies	\$623,076,347	\$622,171,819	-0.1%

### Highway Fund Expenditures by Major Department

Transportation	\$251,975,515	\$254,949,226	1.2%
Secretary of State	\$29,906,136	\$31,106,193	4.0%
Public Safety	\$28,633,698	\$28,584,309	-0.2%
Other Departments and Agencies	\$3,672,345	\$2,646,630	-27.9%

## MaineCare Update

### MaineCare Expenditures 2013

MaineCare Table 1 summarizes and compares MaineCare and Related expenditures to appropriations and allotments for FY 2013 by program. MaineCare and Related appropriations of \$655.6 million for FY 2013 provided through the 125<sup>th</sup> Legislature were increased to \$772.5 million during the first session of the 126<sup>th</sup> Legislature in the supplemental (PL 2013 c. 1) and biennial (PL 2013 c. 368) budget bills. Total allotment available for these programs also included carryover funds from FY 2012 resulting in \$783.4 million in total available resources for FY 2013 (*note:* differences between appropriations and allotments for individual programs were significant reflecting the DHHS using its authority to transfer allotment between MaineCare programs). Expenditures totaled \$771.7

million leaving an allotment balance of \$11.7 million for FY 2013, which will carry forward for use in these programs in FY 2014. MaineCare Table 2 summarizes MaineCare and Related expenditures by service area for the last three fiscal years. The growth in total spending (all state and federal dollars) from FY 2012 to FY 2013 of 2.8%, included increases in the hospital services (i.e., from the continued implementation of the new hospital payment system), one-time hospital settlements, residential care, clinic services, mental health services and rehabilitation services expenditure categories. Significant decreases in expenditures occurred in the pharmacy and related, Medicare crossover payments, home and community-based care waivers, medical professionals and the case management expenditure categories.

**MaineCare Table 1 - FY 2013 General Fund Appropriations/Expenditures Summary**  
(\$'s millions)

MaineCare and Related Programs	2012-13 Appropriations				2012-13

## MaineCare Update (*Continued*)

Another significant factor that affected FY 2013 expenditures was the increased credits and other offsets in the “16 Other Adjustments” expenditure category. This category reflects financial transactions (e.g., third party liability collections, audit settlements, etc.) that are not assigned to another object of expenditure code.

MaineCare Table 2 also summarizes the MaineCare and Related program General Fund expenditures for

the three year period. In aggregate, General Fund MaineCare and Related expenditures decreased by 0.3% from FY 2012 to FY 2013. However, after adjusting for a significant one-time expenditure in FY 2012 for the targeted case management federal settlement and in FY 2013 for hospital settlement payments, the resulting adjusted General Fund change from FY 2012 to FY 2013 is a 2.3% increase.

**MaineCare Table 2 - MaineCare and Related Expenditures Detail**  
*All Funds*

Expenditure Categories	FY 2011	FY 2012	FY 2013	\$	Changes 2012 to 2013 %

General Fund Totals	\$526,068,963	\$774,332,747	\$771,684,091	(\$2,648,656)	-0.3%
One-Time Adjustments <sup>1,2</sup>	(\$69,513,035)	(\$29,736,437)	(\$9,671,846)		
General Fund Adjusted Totals	\$456,555,928	\$744,596,310	\$762,012,245	\$17,415,935	2.3%

<sup>1</sup> Includes one-time hospital settlement payments in FY 2011 and FY 2013.

<sup>2</sup> Includes a one-time \$29.7 million FY 2012 targeted case management federal settlement.

## MaineCare Update (Continued)

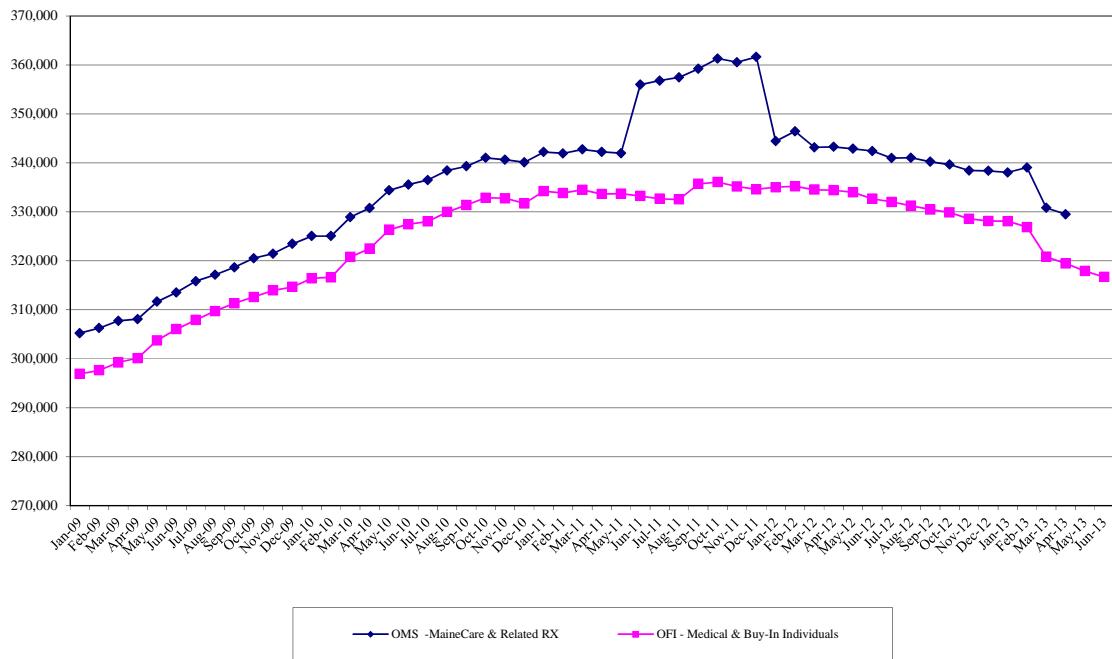

### MaineCare Caseload

MaineCare caseload data detail for May and June has not yet been released by the Department of Health and Human Services (DHHS) Office of MaineCare Services (OMS). Summary data for May and June released by the DHHS Office of Family Independence (OFI) show aggregate MaineCare caseload continues to decrease. MaineCare Chart 1 shows OMS and OFI aggregate caseload data over time. The two sources count MaineCare caseload differently but, except for the problems with the initial switchover to the Maine Integrated Health Management System (MIHMS) caseload data source (June to December 2011), have

done so consistently. transitional Medicaid coverage. The trend in MaineCare caseload through June reflects the continued freeze in new enrollment in the non-categorical adult waiver and, beginning in March of 2013, the effects of ending MaineCare eligibility for parents with incomes from 133% to 200% of the Federal Poverty Level (FPL). Parents below 150% of the FPL who lost coverage in March (and their children – at least temporarily) moved to the transitional Medicaid coverage category. Parents above 150% of the FPL who lost coverage did not get transitional Medicaid coverage.

**MaineCare Chart 1 - MaineCare Caseload Historical Trend Through June 2013**
